With this publication, ADAG now expands to 9 games, Seven(7) Regular and two(20) Variant, I have accumulated Costa games no's. 2, 4, 5, 7, 1965-M, 1966-0, 1966-AC, 1966-AE. This is a supplement of what would have occurred, had the IDF been in force, Costaquana was forced to either farm out its games or quit, John Boardman(Graustark) has taken two, Charles Turner(Armageddonia) has taken one, Bob Ward (Marsotria) has also taken one, I have taken four and Von Metzke will continue the slow game, so In some respects a lost cause, would have successfully kept a Diplomacy Zine in existence.

Game #3 is now designated 1966-AU.

BERLIN-21 Non-1901(SIMPLICISSIMUS) With the arrival of Winter a temporary truce has descended upon the Country, The Government still presents an unchanged facade, but informed voices say that the power is in the hands of the Military-General Dreyfus has been named to command the 3rd Reserve Army forming in Munich. A surprising event, what with Dreyfus's French background.-The 5th reserve still remains on a stepped up drill schedule pending Activation(1966-AM)

25-Dec-1901(1966-AN)(SIMPLICISSIMUS)-A cold bitter winter has smothered the Imperial first.-Caught in the open without permanent shelter, the Army has resorted to liquors to keep warm-Patrols have stepped up their activity as the cold becomes more severe, bringing back what appears to be the entire Wine supply of Burgundy.-Intelligence reports indicate that the so called French Army is one on paper only.-But one can expect such from a corrupt French Republic.

To Italy 1966-AN(2) Just reverse the two moves and they will be all right.

66-AE

"Eine machtige Dampfwalze naht  
um schwartz der sonne pfad,  
rollt über geduckte menschen dahin  
will keiner inr entfliehn  
Mein Lieb und ich schaun starren Blickes  
das Ratsel dieses Blutgeschickes.  
"Kommt mit herab'Die menscheit schreit,  
'Die walze ldt die Gesschichte der zeit;.  
Mein Lieb und ich gehn auf die flucht.  
Wo keine Dampfwalze uns sucht,  
und leben auf den Bergeshohen,  
Getrennt vom schwarzen Zeitgeschehen.  
Sollen wir bleiben mit den andern zu sterben?  
Doch nein,wir zwei wollen nicht verderben?  
Nun ldt's vorbei;Wirsehn mit Erbleichen  
Die opfer der walze,verfaulte leichen.

In this game, with the use of two lakes and two canals, St. Petersburg  
 two coats are eliminated.

The costs for these three games are \$2.50. since I make 22x24 maps  
 and the cost of getting them printed are too high for my pocket-  
 book, I have to make ~~make~~ them myself.

To Jack Chalker Re; Barad-Dur#29, Count A Droite A Gauche on your  
 side, I would rule the same way myself.

Dear Madam, be cautious of Cubid,  
 Listen well to the lines of this verse;  
 To let a fool kiss you is stupid--  
 To let a kiss fool you is worse.
